WELCOME TO SOTA

Thank you for allowing us to be a part of your wellness team.

The Bio Tuner is a consumer product designed to be used as part of a Wellness Lifestyle. A commitment to healthy lifestyle choices is an important factor in the journey to Wellness.

The SOTA Bio Tuner supports the mind-body connection. It outputs a broad range of harmonic frequencies helping to create an inner sense of calm, balance and tranquility.

The Bio Tuner is designed to be used independently, but can also be used together with any of the SOTA Products.

With proper care, your Bio Tuner should provide you many years of trouble-free use. Please understand that results will vary.

BEFORE USING

Please read this manual thoroughly before using your Bio Tuner.

Please note information in this manual is subject to change.

For the most up-to-date manual, please visit our website www.sota.com/manuals.

LEARN MORE

To learn more about the Bio Tuner we invite you to visit the SOTA website:

www.sota.com

The website offers How to Videos, Frequently Asked Questions, *The SOTA Products User Guide*, SOTA News ... and more.

COMPLETE UNIT INCLUDES

- One (1) Bio Tuner Unit
- One (1) Arm Band with Clip
- One (1) 9-Volt Alkaline Battery
- One (1) Carrying Case
- One (1) Product Manual

HEADSET OPTION

- One (1) Headset
- Six (6) Cotton Sleeves

EAR CLIPS OPTION

- One (1) Cord
- One (1) Pair of Ear Clips

DO NOT USE

1. In the following situations as safety has not been explored:
 - a. In the case of pregnancy.
 - b. With an implanted device such as a pacemaker, etc.
2. As with all electrical products do not use near water, when driving a car or when operating heavy equipment.
3. Do not:
 - a. Suddenly increase the intensity to the maximum level. The intensity should be increased gradually to a comfortable level to ensure safety.

CAUTIONS

1. If you are on psychiatric medication, have a neurological condition or seizures, please consult your health care provider prior to using the Bio Tuner.
2. In very rare instances, individuals have reported the onset or worsening of tinnitus when using the unit. If you experience tinnitus or a ringing in the ears, please discontinue use.
3. In very rare instances, individuals have reported experiencing headaches or nerve pain when using the unit. If you experience headaches or nerve pain, please discontinue use.
4. While this technology is generally considered safe, there exists potential for rare individual reactions that cannot reasonably be foreseen. Therefore, your use of the SOTA Products constitutes your agreement that you are responsible for your decision to use the technology.

SUMMARY OF LIGHTS

GREEN: Indicates which Mode is selected.

RED: Indicates the battery is low and will soon need replacing.

YELLOW: Used for testing to ensure the flow of current through the Unit and the Headset or the Ear Clips and Cord.

HOW TO USE THE BIO TUNER

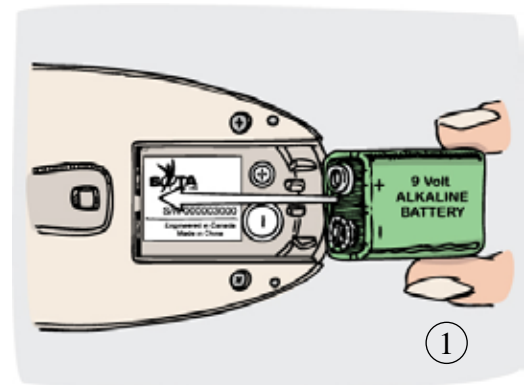

1. Place the 9-Volt Alkaline battery in the unit.

- a. On the back of the unit, slide off the battery cover.
- b. Position the 9-Volt Alkaline battery so the positive (+) and negative (-) terminals line up as in image 1.

Note: The smaller circle on the battery matches the smaller circle in the case ... the larger battery circle matches the larger circle in the case.

c. Slide the 9-Volt Alkaline battery into the case and push down.

d. Slide the cover back onto the unit.

2. Slide the clip on the back of the Bio Tuner into the holding clip on the Arm Band as in image 2.

HEADSET OPTION

3. Insert the Headset Cord into the jack on the unit. The flat side of the plug should be facing up. When the plug is positioned correctly, it will slide in gently. Do not force.

4. Slide the Arm Band, with the unit and cord, up the arm to a comfortable position. Tighten the band to secure in place as in image 3.

Option: If preferred, the unit can be placed in a pocket.

5. Clean the area behind each ear to eliminate skin oils.

This will allow for better conductivity.

- a. Wet the Cotton Sleeves with water and place them over the Headset electrodes.
- b. Position the Headset electrodes in the hollow behind the ears as in image 4.

EAR CLIPS OPTION

3. Insert the cord into the jack on the unit as shown in image 5. The indented square on the plug should be facing up. When the plug is positioned correctly, it will slide in gently. Do not force.
4. Slide the Arm Band, with the unit and cord, up the arm to a comfortable position. Tighten the band to secure in place as in image 3 on page 4.

Option: If preferred, the unit can be placed in a pocket.

5. Clean the ear lobes to eliminate skin oils. This will allow for better conductivity.

- a. Insert the pins on the cord into the Ear Clips.
- b. Wet the conductive rubber on the Ear Clips with water or conductive gel.
- c. Place one Ear Clip on each ear lobe, positioning the Ear Clip with the conductive rubber at the back of the ear lobe and close to the jaw as in image 6.

TURNING THE UNIT ON

6. Turn the unit ON by turning the ON/OFF switch clockwise.

All the lights will flash once, before starting the unit in Mode 1. If the lights do not come on, the battery may not be placed correctly.

7. Gradually turn up the intensity to a comfortable level. The intensity should be comfortable. See 'How It Should Feel' on page 7.
8. Change modes by pushing the Mode button. The GREEN light indicates which Mode

is selected and that the timing has started. See Mode information on page 8.

9. After the 20-minute timed session, the unit will automatically cycle into Sleep Mode and the GREEN Mode light will flash every 2 seconds.

10. While in Sleep Mode the battery is still being used. Either reset to continue or turn the unit OFF.

a. To reset, push the Mode button for another timed session. Before resetting for a second timed cycle, wet the Cotton Sleeves or Ear Clips again.

b. To turn the unit OFF, rotate the ON/OFF switch counter clockwise until it clicks. Do not force the ON/OFF switch past its natural stopping point.

11. Unplug the Headset or the Cord. Do not store the unit with the Headset or Cord plugged in as this can damage either the Headset or the Cord.

Notes:

Headset and Ear Clips: The Headset and the Ear Clips may feel more comfortable with the use of either conductive gel or aloe vera gel rather than water. Over time, the Ear Clips may lose their conductivity and will need to be replaced.

Changing Modes: When the Mode is changed during a timed session, one of the following will occur depending on when your unit was made: 1) the timing continues without interruption to complete a session of approximately 20 minutes or 2) the timing starts again for a new 20 minute session.

Output: The YELLOW light is used to test the output of the unit. During normal operation, when the unit is turned ON and the Headset or Ear Clips are positioned correctly, the YELLOW light may or may not come on. As long as the current is felt, the unit is operating correctly, regardless of the YELLOW light.

Care of Bio Tuner Cord and Ear Clips: Occasionally, remove the conductive rubber from the Ear Clips to clean in a mild soap solution. Rinse thoroughly. If necessary, gently wipe the metal pins of the Bio Tuner Cord.

Low Battery Warning: The RED light comes on when the battery is low. This means

the battery will soon need to be replaced.

Replacement Batteries: When purchasing replacement 9-Volt batteries, take the Bio Tuner with you to ensure a proper fit, as 9-Volt batteries vary in size.

HOW IT SHOULD FEEL

1. The sensation is a pleasant buzzing. It is not necessary to turn the control up to an uncomfortable level. If it feels prickly or unpleasant, check the following:

HEADSET OPTION

- a. Wet the Cotton Sleeves again.
- b. Apply conductive gel or aloe vera gel to the hollow behind the ears.

EAR CLIPS OPTION

- a. Wet the conductive rubber of the Ear Clips again.
 - b. Apply conductive gel or aloe vera gel to the ear lobes.
 - c. Clean the Conductive Rubber Electrodes.
 - d. Replace the Conductive Rubber Electrodes.
2. With repeated use, the buzzing sensation may not be felt as much. The intensity may be turned up if desired.
 3. You may feel a sensation on one side more than the other.
 4. In rare instances, some individuals may not feel the current.

TYPICAL USE

Length of Session: One cycle is timed for approximately 20-minutes. One session can be 20 to 40 minutes or more (1 to 2 cycles or more).

The unit can be used for up to three sessions per day – space the sessions throughout the day. It often takes at least 30 days of use to experience the benefits.

Length of Use: The unit should be used daily, at least 2 sessions per day, for a minimum of 4 weeks or longer. After the benefits have been achieved, simply use the unit as needed.

Intensity Level: The intensity should always be set to a comfortable level. Be sure to reduce the intensity before changing modes. After the new mode is selected, readjust the intensity.

With Extended Use: It is recommended to vary the Mode from time to time.

Sensitive Skin: During the first weeks of use, the skin may become irritated when using the Ear Clip Option. Over time, irritation usually decreases or disappears.

Apply a healing lotion after use if the ear lobes become red or irritated.

Drink plenty of water: It's important to drink enough water when using the unit. Drinking ozonated water is especially helpful.

Stop Gradually: Reduce the amount of time each day for the last week of use.

CHANGING THE CONDUCTIVE RUBBER ELECTRODES

1. Remove the Ear Clips from the Cord.

2. Gently pull the black Conductive Rubber Electrodes out of the Ear Clips.

Insert the new Conductive Rubber Electrodes into the Ear Clips. Press the Electrode into place.

OUTPUT OF SIX MODES

The Bio Tuner provides six different Modes with which to experiment and discover what feels or works best. Try different Modes to determine which feels most comfortable. With extended use, it is recommended to vary the Mode from time to time, as your body can become acclimatized.

One Mode is not considered more beneficial than another.

In all Modes, the base frequency of 1,000 Hz pulse-modulated by 111.11 Hz is present. Modes 4, 5, and 6 may have a more gentle feel.

See table on page 9.

BIO TUNER MODES

MODE 1-3 (550 uS pulse width)

Mode 1: 1,000 Hz modulated by 111.11 Hz,
Output = Continuous

Mode 2: 1,000 Hz modulated by 111.11 Hz,
Output = 1 Second ON, 1 Second OFF (0.5 Hz)

Mode 3: 1,000 Hz modulated by 111.11 Hz,
Output = Amplitude Modulated by 7.83 Hz Schumann (Earth) Sine Wave

MODE 4-6 (220 uS PULSE WIDTH)

Mode 4: 1,000 Hz modulated by 111.11 Hz,
Output = Continuous

Mode 5: 1,000 Hz modulated by 111.11 Hz,
Output = 1 Second ON, 1 Second OFF (0.5 Hz)

Mode 6: 1,000 Hz modulated by 111.11 Hz,
Output = Amplitude Modulated by 7.83 Hz Schumann (Earth) Sine Wave

ELECTRICAL SPECIFICATIONS

POWER REQUIREMENTS

Use a 9-Volt Alkaline battery for proper operation.

OPTIONAL POWER INPUT

The Bio Tuner can also be operated using rechargeable batteries. When purchasing rechargeable batteries, it is suggested to take the unit with you to ensure the batteries will fit the enclosure.

OUTPUT SPECIFICATIONS

Maximum 1.5mA Peak ~40 Volts Peak-Peak into typical 4k ohm load. Minimum <math><10\mu\text{A}</math>, 10 Volt Peak-Peak at lowest setting. Output impedance ~20k ohm.

1,000 Hz (+/- 1%) pulse-modulated by 111.11 Hz (+/- 1%). Waveforms are Quartz Crystal-Controlled for precise frequency output. There is also a broad range of harmonic frequencies delivered in each pulse as observed on a frequency domain spectrum analyzer.

Pulses are an alternating current (AC) output with no direct current (DC) or offset bias. Output is transformer coupled so that no DC can appear at electrodes.

TROUBLESHOOTING

A Troubleshooting Guide for the Bio Tuner is available at www.sota.com/manuals. This Guide is a great tool to check if you are experiencing any issues with your unit.

COUNTRIES THAT PARTICIPATE IN MANUFACTURING

The manufacturing of the SOTA Products is a global collaboration. The following countries have participated in the making of the Bio Tuner (listed in alphabetical order): **Canada, China, Hong Kong, Malaysia, Morocco, Taiwan and Thailand.**

REPLACEMENT ACCESSORIES

To replace your accessories, contact your supplier.

WARRANTY

The Bio Tuner Model BT7 is covered by a three (3) year limited warranty. Please keep proof of purchase. Warranty is void if the failure is due to abuse or negligence. SOTA reserves the right to make changes to the Bio Tuner without obligation.

REPAIRS

Please contact your supplier for return instructions. For information about your closest repair depot, contact repairs@sota.com or call Toll-Free: 1.800.224.0242 (Canada & USA) or 1.250.770.2023.

Made in China. Designed and Engineered in Canada.

• The SOTA units are consumer products designed to be used as part of a Wellness Lifestyle • The SOTA units are not medical devices nor are they intended to diagnose, treat or cure any medical or health condition • The use, safety or effectiveness of the SOTA units has not been approved by any government agency • Please consult a health practitioner for any medical or health condition • Results using the SOTA Products will vary for each person • Please note that all purchases of SOTA Products are deemed to be made in Penticton, BC, Canada •
